EVENT REPORT

2023

Event Summary

Code Gladiators is the flagship coding competition of the world's largest coding community, TechGig. It has been felicitated with the Guinness World Record and the Limca Book of Records mention for its massive participation. The 10th edition of Code Gladiators kicked off on March 27, 2023, and witnessed over **3.15 lakh registrations**, the highest ever recorded so far, from 87 countries around the world.

Code Gladiators 2023 was the first ever hybrid version of the event and it hosted 1 open coding round and 2 theme hackathons.

The competition concluded with the hackathon and coding finale rounds on July 28 and 29 respectively. Both these days, 2400 finalists thronged the on ground as well as virtual arena at events.techgig.com to attempt their last coding problems. The winners were announced during the hybrid grand award ceremony that took place on July 30 and where awards worth INR 50 Lakh were announced for winners.

The event was marked by a special address by Sanghamitra Pati, Consulting Leader at Deloitte, where she gave the audience a preview of the next 25 years in the technology domain. Jayanta Mukherjee, Sr Director and WW R&D leader, Communications Technology Group, HPE delivered the keynote address and talked about the radical shift in software development and various innovations around the world.

The event further hosted 2 panel discussions alongside fireside talks where tech leaders Lowe's India, HPE, Honeywell, Publicis Sapient, Oracle India, EPAM India, Societe Generale Global Solution Centre and Thomson Reuters from shared their insights on exponential growth of DevSecOps and Developer Relations ecosystem as well as it's current evolution.

🏆 Thrilled to announce my success in the final round of **Code Gladiators** on the Tech Gig platform! 🚀 Outperforming competitors, I secured a coveted position within the top 1000. 🌟 This achievement reflects my strong command over Java programming and problem-solving skills.

Through three rigorous rounds, I tackled real-life challenges, demonstrating my ability to apply coding solutions to practical scenarios. The **TechGig** platform provided an incredible opportunity to showcase my proficiency in addressing complex problems with finesse.

I'm honored to have participated in Code Gladiators on Tech Gig, an experience that has not only refined my coding capabilities but has also enriched my understanding of real-world problem-solving. Looking forward to the next coding adventure! #CodeGladiators #TechGig #JavaProgramming #ProblemSolver
